PerfectCue®

Network Operation using IP-2000X-PC
Serial-to-Ethernet adapter

● A Network Extender (IP-2000X-PC) is connected to each cue light
● One is designated a "Server" The other(s) as Client(s) - max 7 clients.
● Optional DHCP or manual configuration of IP address depending on requirements of network administrator
● Use high port number > 5000 > 65000 to not interfere with (i.e. routers, printers, etc)
